CNN January 2018

The study was conducted for CNN via telephone by SSRS, an independent research company. Interviews were conducted from **January 14, 2017 – January 18, 2018** among a sample of **1,005** respondents, no interviewing took place on January 16th due to weather conditions at the call center locations. The landline total respondents were **404** and there were **601** of cell phone respondents. The margin of sampling error for total respondents is +/-3.7 at the 95% confidence level. The design effect is 1.4. More information about SSRS can be obtained by visiting www.ssrs.com. Unless otherwise noted, results beginning with the March 31-April 2, 2006 survey and ending with the April 22-25, 2017 survey are from surveys conducted by ORC International. Results before March 31, 2006 are from surveys conducted by Gallup.

EMBARGOED FOR RELEASE:
Sunday, January 21 at 8:00 a.m.

Now turning to the elections for Congress which will be held this year...

Q14. (Q14) How enthusiastic would you say you are about voting for Congress this year -- extremely enthusiastic, very enthusiastic, somewhat enthusiastic, not too enthusiastic, or not at all enthusiastic?**

	Extremely enthusiastic	Very enthusiastic	Somewhat enthusiastic	Not too enthusiastic	Not at all enthusiastic	No opinion

1994 Oct 7-9	39%	51%	7%	3%
1994 Jun 11-12	45%	42%	8%	5%

QUESTION WORDING: Thinking about your vote for Congress, would you be more likely to vote for a candidate for Congress who supports President Clinton, or more likely to vote for a candidate who opposes President Clinton?

MORE ON METHODOLOGY

A total of **1,005** adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. Interviews were conducted in English and Spanish. Interviews were conducted Janruary 14-18, 2018, however no interviews were conducted on Janruary 16th due to weather conditions at call center locations. Among the entire sample, **33**% described themselves as Democrats, **24**% described themselves as Republicans, and **43**% described themselves as independents or members of another party.

All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage.

Results for the full sample have a margin of sampling error of **+/-3.7** percentage points. For the sample of **913** registered voters, it is **+/-3.8** percentage points.

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/-8.5 percentage points or less once adjusted for design effect. Some subgroups represent too small a share of the national population to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups, but results for groups with a design-effect adjusted sampling error larger than +/-8.5 percentage points are not displayed and instead are denoted with "N/A".
