OVERVIEW

The study was conducted for CNN via telephone by SSRS, an independent research company, on its Omnibus survey platform. Interviews were conducted from **March 24-29, 2020** among a sample of **1,013** respondents. The landline total respondents were **305** and there were **708** cell phone respondents. The margin of sampling error for total respondents is +/- **3.5** at the 95% confidence level. The design effect is **1.27**. More information about SSRS can be obtained by visiting www.ssrs.com. Unless otherwise noted, results beginning with the March 31-April 2, 2006 survey and ending with the April 22-25, 2017 survey are from surveys conducted by ORC International. Results before March 31, 2006 are from surveys conducted by Gallup.

Question text noted in parentheses was rotated or randomized. Values less than 0.5 percent are indicated by an asterisk (*).

**EMBARGOED FOR RELEASE:
Monday, March 30 at 4:00 p.m.**

Q1. Do you think the federal government has done a good job or a poor job of preventing the spread of novel coronavirus, sometimes referred to as COVID-19, in the U.S.?

	Good job	Poor job	No opinion
March 24-29, 2020	48%	47%	5%
March 4-7, 2020	49%	43%	9%

Q2. Overall, how prepared do you think you are to deal with a coronavirus infection if you or someone in your family contracted the virus? Would you say you feel very prepared, somewhat prepared, not too prepared, or not at all prepared to respond to that? **[RESPONSES ROTATED IN ORDER FOR HALF/IN REVERSE ORDER FOR HALF]**

	NET Prepared	Very prepared	Somewhat prepared	NET Not prepared	Not too prepared	Not at all prepared	No opinion
March 24-29, 2020	76%	30%	46%	22%	14%	9%	1%
March 4-7, 2020	68%	24%	44%	31%	16%	15%	1%

MORE ON METHODOLOGY

A total of **1,013** adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. Interviews were conducted in English and Spanish. Among the entire sample, **33%** described themselves as Democrats, **27%** described themselves as Republicans, and **39%** described themselves as independents or members of another party.

This study was conducted for CNN via telephone by SSRS on its Omnibus survey platform. The SSRS Omnibus is a national, weekly, dual-frame bilingual telephone survey designed to meet standards of quality associated with custom research studies.

All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage.

Results for the full sample have a margin of sampling error of +/- 3.5 percentage points.

Interviews were conducted among a representative sample of the adult population, age 18 or older, of the United States.

Margins of sampling error for subgroups included in the crosstabs are as follows:

Male	+/-4.8
Female	+/-5.0
Under age 35	+/-7.7
35-44	+/-8.3
45-54	+/-8.9
55-64	+/-8.8
Age 65+	+/-6.4
Income under \$25K	+/-8.0
Income \$25K-\$49,999	+/-7.1
Income \$50K-\$74,999	+/-9.6
Income \$75K+	+/-5.9
HS or less	+/-6.6
Some college	+/-6.6
College graduates	+/-5.3
Northeast	+/-8.4
North Central	+/-7.7
South	+/-5.6
West	+/-7.0
White non-Hispanic	+/-4.2
Black	+/-10.6
Hispanic	+/-9.0
Democrats	+/-5.9
Independents	+/-5.7
Republicans	+/-6.5

Q1. Do you think the federal government has done a good job or a poor job of preventing the spread of novel coronavirus, sometimes referred to as COVID-19, in the U.S.?
