OVERVIEW

The study was conducted for CNN via telephone by SSRS, an independent research company. Interviews were conducted from **June 2-5, 2020** among a sample of **1,259** respondents, including an oversample of **250** black, non-Hispanic respondents. The landline total respondents were **448** and there were **811** cell phone respondents. The margin of sampling error for total respondents is **+/- 3.4** at the 95% confidence level. The design effect is **1.47**. More information about SSRS can be obtained by visiting www.ssrs.com. Unless otherwise noted, results beginning with the March 31-April 2, 2006 survey and ending with the April 22-25, 2017 survey are from surveys conducted by ORC International. Results before March 31, 2006 are from surveys conducted by Gallup.

Question text noted in parentheses was rotated or randomized. Values less than 0.5 percent are indicated by an asterisk (*).

NOTE ABOUT CROSSTABS

Interviews were conducted among a representative sample of the adult population, age 18 or older, of the United States. Members of demographic groups not shown in the published crosstabs are represented in the results for each question in the poll. Crosstabs on the pages that follow only include results for subgroups with a minimum n=125 unweighted cases. Results for subgroups with fewer than n=125 unweighted cases are not displayed and instead are denoted with "SN" because samples of that size carry larger margins of sampling error and can be too small to be projectable with confidence to their true values in the population.

**EMBARGOED FOR RELEASE:
Monday, June 8 at 6:00 a.m.**

A1. Do you approve or disapprove of the way Donald Trump is handling his job as president?

	More helpful	More harmful	No opinion
June 2-5, 2020	26%	65%	9%

Q32. Do you think it would be appropriate or not appropriate for the president to deploy the U.S. military in response to protests in the United States?

	Appropriate	Inappropriate	No opinion
June 2-5, 2020	36%	60%	4%

MORE ON METHODOLOGY

A total of **1,259** adults, including an oversample of **250** black, non-Hispanic adults, were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. Oversampled black, non-Hispanic respondents have been weighted to represent their proper share of the adult population. Interviews were conducted in English and Spanish. Among the entire sample, **32%** described themselves as Democrats, **25%** described themselves as Republicans, and **44%** described themselves as independents or members of another party.

All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage.

Results for the full sample have a margin of sampling error of +/- 3.4 percentage points. For the sample of 1,125 registered voters, it is +/- 3.6 percentage points. For the subset of 634 white, non-Hispanic respondents it is +/- 4.4 percentage points. For the subset of 362 black, non-Hispanic respondents it is +/- 7.1 percentage points.

Interviews were conducted among a representative sample of the adult population, age 18 or older, of the United States. Members of demographic groups not shown in the published crosstabs are represented in the results for each question in the poll. Crosstabs on the pages that follow only include results for subgroups with a minimum n=125 unweighted cases. Results for subgroups with fewer than n=125 unweighted cases are not displayed and instead are denoted with "**SN**" because samples of that size carry larger margins of sampling error and can be too small to be projectable with confidence to their true values in the population.
