OVERVIEW

The study was conducted for CNN via telephone by SSRS, an independent research company, on its Omnibus survey platform. Interviews were conducted from **September 24-29, 2019** among a sample of **1,009** respondents. The landline total respondents were **305** and there were **704** cell phone respondents. The margin of sampling error for total respondents is +/- **3.5** at the 95% confidence level. The design effect is **1.26**. More information about SSRS can be obtained by visiting www.ssrs.com. Question text noted in parentheses was rotated or randomized. Unless otherwise noted, results beginning with the March 31-April 2, 2006 survey and ending with the April 22-25, 2017 survey are from surveys conducted by ORC International. Results before March 31, 2006 are from surveys conducted by Gallup.

**EMBARGOED FOR RELEASE:
Monday, September 30 at 4:00 p.m.**

MORE ON METHODOLOGY

A total of **1,009** adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. Interviews were conducted in English and Spanish. Among the entire sample, **35%** described themselves as Democrats, **26%** described themselves as Republicans, and **39%** described themselves as independents or members of another party.

This study was conducted for CNN via telephone by SSRS on its Omnibus survey platform. The SSRS Omnibus is a national, weekly, dual-frame bilingual telephone survey designed to meet standards of quality associated with custom research studies.

All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage.

Results for the full sample have a margin of sampling error of +/- 3.5 percentage points.

Interviews were conducted among a representative sample of the adult population, age 18 or older, of the United States.
