

OVERVIEW

The study was conducted for CNN via telephone by SSRS, an independent research company. Interviews were conducted from **October 1-4, 2020** among a sample of **1,205** respondents. The landline total respondents were **424** and there were **781** cell phone respondents. The margin of sampling error for total respondents is +/- **3.3** at the 95% confidence level. The design effect is **1.39**. For results among the 1,095 registered voters, the margin of sampling error is +/-3.5 and for results among the 1,001 likely voters, it is +/-3.6. More information about SSRS can be obtained by visiting www.ssrs.com. Unless otherwise noted, results beginning with the March 31-April 2, 2006 survey and ending with the April 22-25, 2017 survey are from surveys conducted by ORC International. Results before March 31, 2006 are from surveys conducted by Gallup.

Question text noted in parentheses was rotated or randomized. Values less than 0.5 percent are indicated by an asterisk (*).

NOTE ABOUT CROSSTABS

Interviews were conducted among a representative sample of the adult population, age 18 or older, of the United States. Members of demographic groups not shown in the published crosstabs are represented in the results for each question in the poll. Crosstabs on the pages that follow only include results for subgroups with a minimum N=125 unweighted cases. Results for subgroups with fewer than N=125 unweighted cases are not displayed and instead are denoted with "SN" because samples of that size carry larger margins of sampling error and can be too small to be projectable with confidence to their true values in the population.

**EMBARGOED FOR RELEASE:
Tuesday, October 6 at 6:00 a.m.**

(Respondents who are registered to vote, N=1,095)

P1. Suppose that the presidential election were being held today and you had to choose between Joe Biden and Kamala Harris as the Democratic Party’s candidates, and Donald Trump and Mike Pence as the Republican Party’s candidates. Who would you be more likely to vote for?

P1a. As of today, do you lean more toward...

[NAMES ROTATED IN ORDER FOR HALF/IN REVERSE ORDER FOR HALF]

P1/P1A COMBO TABLE

	Yes, has done enough	No, has not done enough	No opinion
October 1-4, 2020	32%	64%	4%

MORE ON METHODOLOGY

A total of **1,205** adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. Interviews were conducted in English and Spanish. Among the entire sample, **33%** described themselves as Democrats, **28%** described themselves as Republicans, and **39%** described themselves as independents or members of another party.

All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage.

Results for the full sample have a margin of sampling error of +/- 3.3 percentage points. For the sample of 1,095 registered voters, it is +/- 3.5 percentage points. For the sample of 1,001 likely voters, it is +/- 3.6 percentage points.

Interviews were conducted among a representative sample of the adult population, age 18 or older, of the United States. Members of demographic groups not shown in the published crosstabs are represented in the results for each question in the poll. Crosstabs on the pages that follow only include results for subgroups with a minimum n=125 unweighted cases. Results for subgroups with fewer than n=125 unweighted cases are not displayed and instead are denoted with "**SN**" because samples of that size carry larger margins of sampling error and can be too small to be projectable with confidence to their true values in the population.

CNN/SSRS Poll -- October 01, 2020 to October 04, 2020 (Likely voters)

TABLE 003

Question P1/P1a Combo Table

P1. Suppose that the presidential election were being held today and you had to choose between Joe Biden and Kamala Harris as the Democratic Party's candidates, and Donald Trump and Mike Pence as the Republican Party's candidates. Who would you be more likely to vote for?
