

## OVERVIEW

The study was conducted for CNN via telephone by SSRS, an independent research company. Interviews were conducted from **April 21-26, 2021** among a sample of **1,004** respondents. The landline total respondents were **227** and there were **777** cell phone respondents. The margin of sampling error for total respondents is +/- **3.6** at the 95% confidence level. The design effect is **1.36**. More information about SSRS can be obtained by visiting [www.ssrs.com](http://www.ssrs.com). Unless otherwise noted, results beginning with the March 31-April 2, 2006 survey and ending with the April 22-25, 2017 survey are from surveys conducted by ORC International. Results before March 31, 2006 are from surveys conducted by Gallup.

Question text noted in parentheses was rotated or randomized. Values less than 0.5 percent are indicated by an asterisk (\*).

## NOTE ABOUT CROSSTABS

Interviews were conducted among a representative sample of the adult population, age 18 or older, of the United States. Members of demographic groups not shown in the published crosstabs are represented in the results for each question in the poll. Crosstabs on the pages that follow only include results for subgroups with a minimum N=125 unweighted cases. Results for subgroups with fewer than N=125 unweighted cases are not displayed and instead are denoted with "**SN**" because samples of that size carry larger margins of sampling error and can be too small to be projectable with confidence to their true values in the population.

**EMBARGOED FOR RELEASE:**

**Friday, April 30 at Noon**

Q5. Thinking about the results of the 2020 presidential election, do you think that Joe Biden legitimately won enough votes to win the presidency, or not?

	Yes, Biden legitimately won enough votes to win the presidency	No, Biden did not legitimately win enough votes to win the presidency	No opinion
<b>April 21-26, 2021</b>	65%	30%	4%
<b>January 9-14, 2021</b>	65%	32%	3%

**(Respondents who say Biden did not legitimately win enough votes to win the presidency, N=322)**

Q5a. (Do you think there's been solid evidence of that), or (is that your suspicion only)?

	Solid evidence	Suspicion only	No opinion
<b>April 21-26, 2021</b>	69%	29%	2%
<b>January 9-14, 2021</b>	73%	22%	4%

Q5. Thinking about the results of the 2020 presidential election, do you think that Joe Biden legitimately won enough votes to win the presidency, or not?

Q5a. (Do you think there's been solid evidence of that), or (is that your suspicion only)?

Q5/Q5A COMBO TABLE

	NET Yes, Biden legitimately won enough votes to win the presidency	NET No, Biden did not legitimately win enough votes to win the presidency	Did not legitimately win enough votes, Solid evidence	Did not legitimately win enough votes, Suspicion only	Did not legitimately win enough votes, No opinion	No opinion
<b>April 21-26, 2021</b>	65%	30%	21%	9%	1%	4%
<b>January 9-14, 2021</b>	65%	32%	23%	7%	1%	3%

J4. Which of the following do you think is a bigger problem with elections in the United States? [RESPONSES ROTATED IN ORDER FOR HALF/IN REVERSE ORDER FOR HALF]

	<b>That the rules around voting make it too difficult for eligible citizens who want to vote to cast a ballot.</b>	<b>That the rules around voting are not strict enough to prevent illegal votes from being cast.</b>	<b>Neither is a problem in the United States (vol.)</b>	<b>No opinion</b>
<b>April 21-26, 2021</b>	45%	46%	4%	5%
<b>March 3-8, 2021</b>	39%	53%	3%	5%

Q11. For each of the following rules a state could implement around voting, please tell me what effect, if any, you think it would have on whether elections in the U.S. are conducted fairly. (INSERT ITEM). On balance, do you think that rule would make U.S. elections (more fair), (less fair), or would it not make much difference? [ITEMS READ IN RANDOM ORDER]

Ensuring that in-person voting before Election Day is available outside of normal business hours and on the weekends	Would make elections more fair	Would make elections less fair	Would not make much difference	No opinion
April 21-26, 2021	65%	10%	24%	1%

Requiring voters to provide photo identification before they cast a ballot	Would make elections more fair	Would make elections less fair	Would not make much difference	No opinion
April 21-26, 2021	64%	17%	17%	1%

Automatically registering those eligible to vote when they turn 18 years old	Would make elections more fair	Would make elections less fair	Would not make much difference	No opinion
April 21-26, 2021	51%	17%	31%	2%

Allowing a voter to register at their polling place on election day	Would make elections more fair	Would make elections less fair	Would not make much difference	No opinion
April 21-26, 2021	48%	23%	27%	2%

Allowing election officials to send absentee ballot applications to every registered voter in the state	Would make elections more fair	Would make elections less fair	Would not make much difference	No opinion
April 21-26, 2021	42%	36%	20%	2%

Limiting access to ballot drop boxes to only those hours when polls are also open	Would make elections more fair	Would make elections less fair	Would not make much difference	No opinion
April 21-26, 2021	34%	41%	21%	3%

Making it against the law to provide food or water to people waiting in line to vote	Would make elections more fair	Would make elections less fair	Would not make much difference	No opinion
April 21-26, 2021	13%	39%	46%	2%

#### **MORE ON METHODOLOGY**

A total of **1,004** adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. Interviews were conducted in English and Spanish. Among the entire sample, **32%** described themselves as Democrats, **25%** described themselves as Republicans, and **43%** described themselves as independents or members of another party.

All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, population density, and telephone usage.

Results for the full sample have a margin of sampling error of +/- 3.6 percentage points.

Interviews were conducted among a representative sample of the adult population, age 18 or older, of the United States. Members of demographic groups not shown in the published crosstabs are represented in the results for each question in the poll. Crosstabs on the pages that follow only include results for subgroups with a minimum n=125 unweighted cases. Results for subgroups with fewer than n=125 unweighted cases are not displayed and instead are denoted with "**SN**" because samples of that size carry larger margins of sampling error and can be too small to be projectable with confidence to their true values in the population.
